ISSUE DATE : February 15, 2005

It is certified that an error appears or errors appear in the above-identified patent and that said Letters Patent is hereby corrected as shown below:

Column 5, line 46, "compounds of formula are" should be changed to "compounds of formula I are"; line 52, "hydrogen, R'" and R'" are" should be changed to --hydrogen, R'" and R'" are--.

Column 6, line 52 (Scheme I, final formula), the uppermost R'" should be R". Although this was drawn correctly in the Substitute Specification filed September 24, 2004, in the mark-up copy it referred to the earlier Preliminary Amendment filed February 15, 2002. There seems to have been a printing problem with some of the pages I received in that Preliminary Amendment, which caused some of the characters to be duplicated. Anyway, in my copy this group does appear to be R'" instead of R", although it is difficult to read.

Column 9, line 2, "30 mg" should be changed to --30 µg--.
